## Understanding the ECE certification label

(United Nations Economic Commission for Europe, Regulation 22, 2005)

(Also known as ECE 22.05 or ECE R22.05)

05300140/P-010

- A circle surrounding the letter "E" followed by the distinguishing number of the country which has granted approval. (The actual number in the circle after the "E" is not relevant for safety/tech inspection purposes.)
- The approval number (1<sup>st</sup> two digits at present "05" for the year 2005) followed by:
- A dash and symbol:
  - "J" if the helmet does not have a lower face cover (open face),
  - "P" if the helmet has a protective lower face cover (full face), or
  - "NP" if the helmet has a non-protective lower face cover.
- A dash followed by a production serial number.

This will likely be a sewn-in fabric label inside the helmet.

These examples are NOT proper certification labels (please disregard):
