Start Hanging Out With A Faster Crowd.

Tired of the flakes and the phonies? Ready to run with the real racers, the ones who think winning is havin' a real good time? Then welcome to the Team! It doesn't cost you a thing to join BFGoodrich® Team T/A, but look what you get:

Technical advice: *We've been at this game for over 20 years. We know the driving conditions you're facing, and we know the tires that you need to get the job done.*

Trackside support: *Our mobile support trucks and tire technicians attend racing events all over the country. Whether it's mounting new boots or recommending critical air pressures, they're there to help you win!*

Current information: *The monthly Team T/A News keeps you up on racing news, as well as front-line information on the latest Hot Set-Up in your sport. And our Team T/A hotline gives you even faster information!*

Product support: *As a Team T/A member, you're eligible to compete against the best, winning valuable contingency awards with every personal victory. And we make the latest tires and compounds available to you on a special basis, too, so you can keep on with your winning ways.*

What's in it for us: *Simple. You like it when you win. We like it when you win on BFGoodrich tires. That's why we're on your team.*

Whether you're hanging it out at Atlanta or kicking up sand in the Baja boonies, we make the tires you need to win — and when it's true, it ain't braggin'! Why not start hanging out with a faster crowd today?

September 15, 1993

Dear National Solo II Participants,

We would like to take this opportunity to thank all of you for attending the 1993 Yokohama Solo II National Championship and for all of your cooperation which helped make this one of the best, if not the best Nationals yet. Our hats off to all!

A few folks deserve special thanks. On the club side, first and foremost, a big round of applause to your Event Chairman, Andy Andrews. Andy did a magnificent job of coordinating the multitude of functions necessary to make the event a success. However, Andy's greatest contribution was his ability to inspire one and all to do their best with his spirit and humor.

Of course Andy didn't pull this off alone. All of the Chiefs of Specialties performed admirably and unselfishly. These folks really make this event what it is. We hope that you express your gratitude for their hard work and dedication as you see them over the coming months.

The citizens, businesses, and governmental agencies of Salina, as well as the Salina Region of the SCCA, have been the most gracious hosts over the years and this year was no exception. It would be greatly appreciated and useful if a note of thanks for their support was sent to the local organizers and sponsors. Their involvement is an integral part of the success of this event over the years.

Last, but definitely not least, is the deep appreciation we all have for the involvement and support for the past nine years from ***Yokohama Tires****. They deserve our heartfelt thanks for their help in making Solo II the sport it is today.*

Next year's event will be conducted once again in Salina during the week of Labor Day (September 6 - 9) with the Valvoline Pro Solo Finale being held on the preceding weekend (September 3 - 4). Please complete and return both the event evaluation card and the event survey so that all the folks involved in planning the event for next year can do an even better job of providing you with the best event possible.

We hope that you enjoyed your stay in Salina and that you plan to come back next year to once again enjoy the competition and camaraderie.

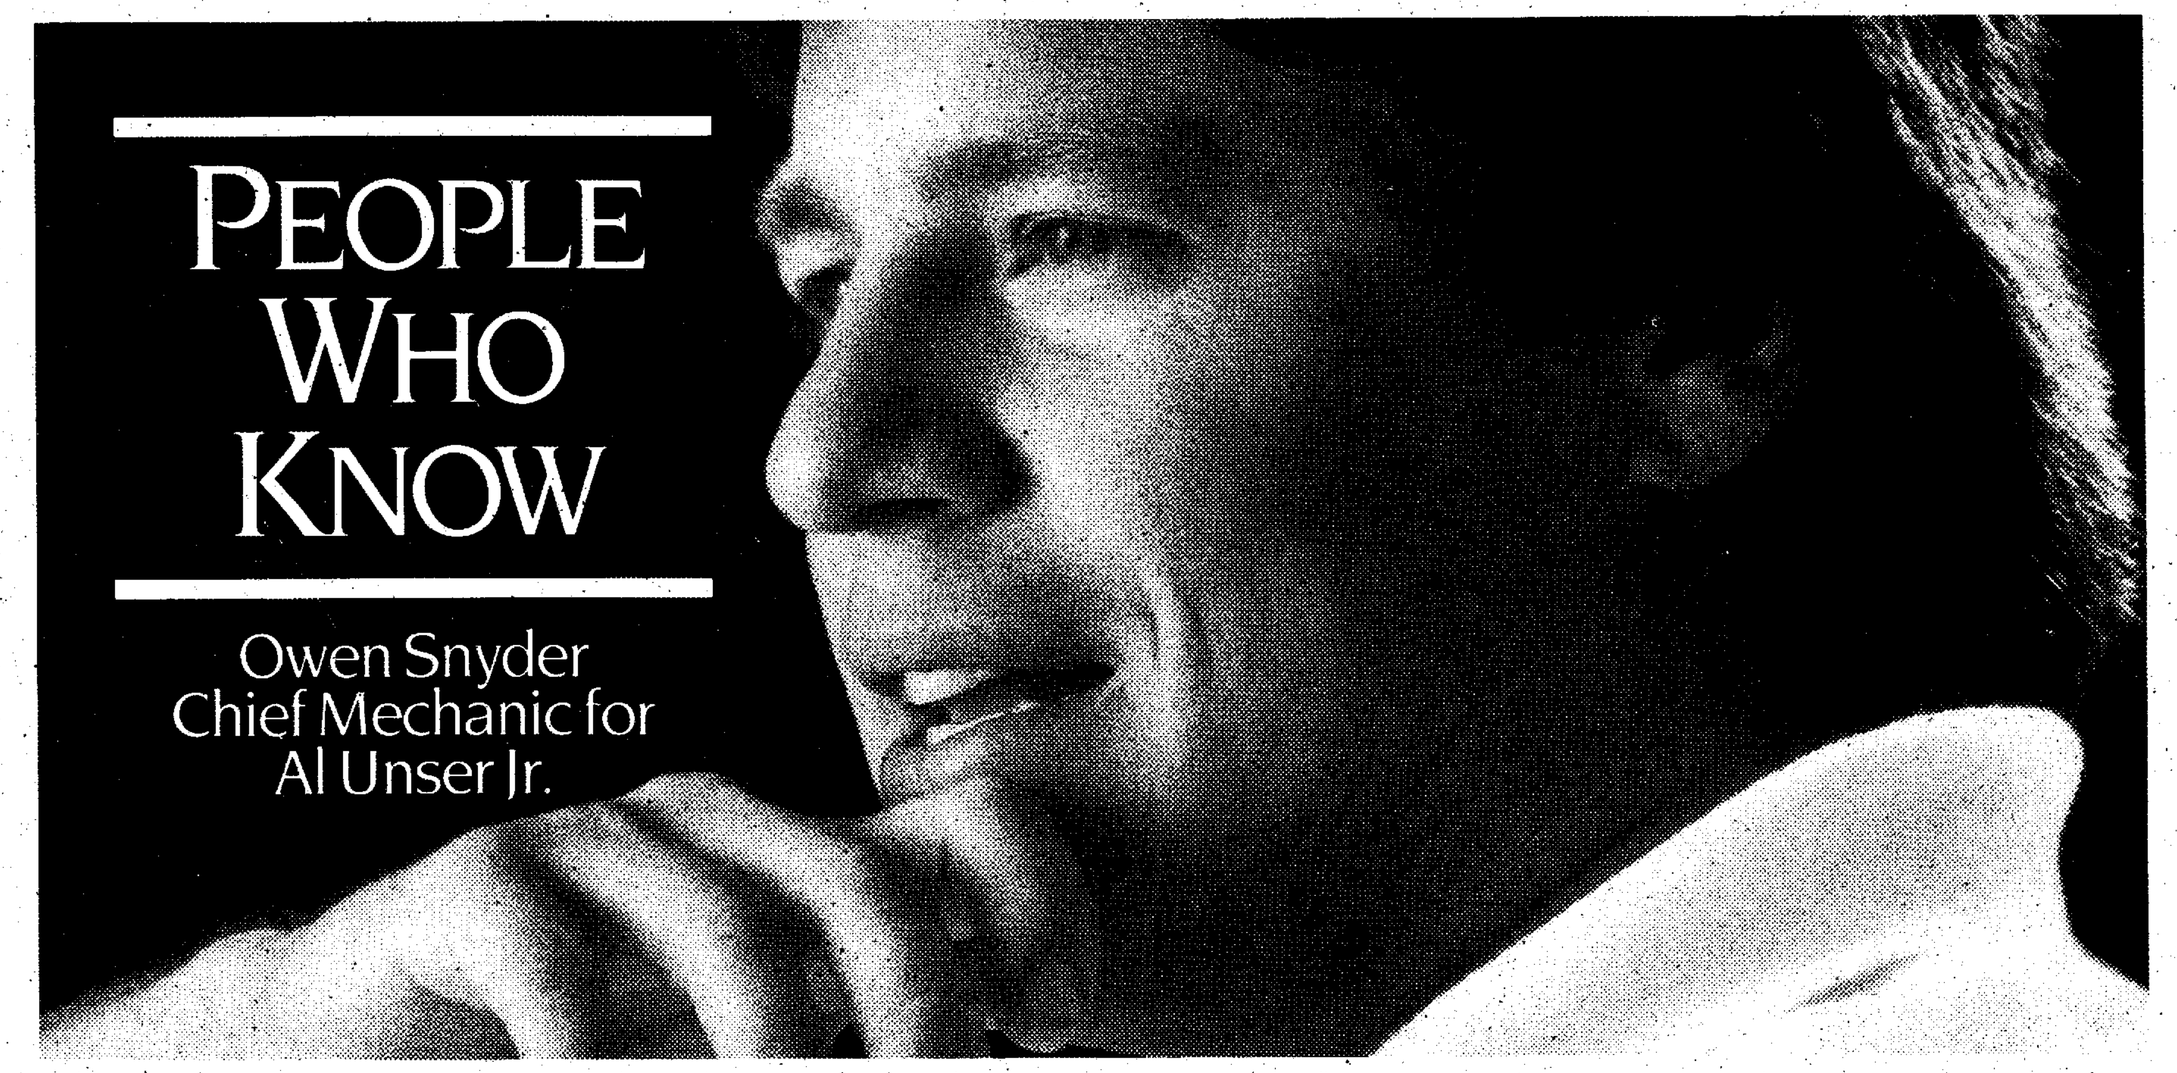
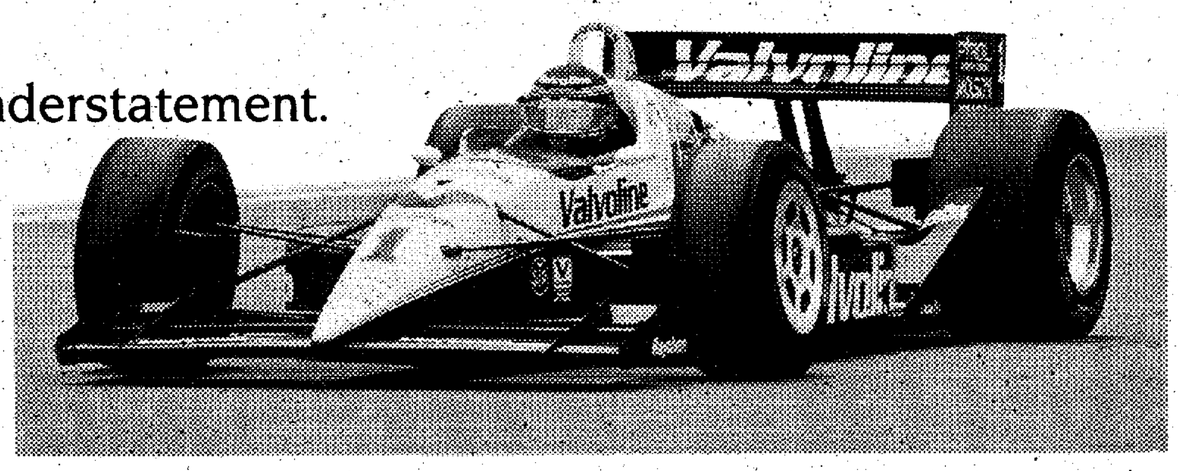
PEOPLE WHO KNOW



"Sunday afternoon is what it's all about. We're a team–six men over the wall. You can't let one little advantage slip away, one little secret get out." To say that Owen Snyder is a focused individual would be something of an understatement.



A more appropriate description might be "obsessed." With winning. And with all the details that make it possible. We're happy to report that one of those details is Valvoline motor oil. Like most Indy 500 Chief Mechanics, Owen uses Valvoline in his race car, and in his personal car. After all, every one of our high performance motor oils is engineered to perform and protect under incredible stress. Withstanding whatever heat, cold, pressure and dirt your engine can throw at it. But don't take it from us. Take it from Owen Snyder. Details are his occupation–and preoccupation.

We're not finished yet.

After a day at the races, our engineers go straight back to work. Because everything they learned at the track goes into developing new tires for the street. It's this kind of thinking that allows us to sell one of the most technologically advanced lines of performance, passenger and truck tires. And to become one of the fastest-growing tire companies around. That's just the start. Call 1-800-366-TIRE and we'll tell you the location of your nearest Yokohama dealer.
