SCCA

SOLO II

NATIONAL CHAMPIONSHIP

SALINA, KS

September 5 - 9

ATTENTION

neon DRIVERS:

Congratulations on earning your way to Salina. You've had a taste of the largest manufacturer's contingency program for a single brand, now take a big bite at Salina.

You've helped make Neon numbers impressive. 93 top three finishes in 52 events* as of 8-14-94. Remarkable! Be sure and visit the Neon Hospitality Tent across from the south course. SEE THE NEW NEON DOHC TWO-DOOR ON DISPLAY.**

*INCLUDES CLUB RACING, SOLO II AND PRO SOLO EVENTS-CERTAIN SOLO EVENTS MAY LIST 2 WINS DUE TO MEN'S AND WOMEN'S CLASSES.

**NEON DRIVERS AND ONE GUEST WILL BE WELCOME EACH DAY (SEPT.3/4/7/8/9).

SCCA

September 14, 1994

Dear National Solo II Participants,

We would like to once again take this opportunity to thank everyone for attending this year's SCCA Solo II National Championship event and for your cooperation in making this such a special and successful event. A standing ovation from us to you for your help.

However, some folks deserve an extra round of applause for their efforts. Leading the pack in this regard is your event chairman, Andy Andrews. Andy's wit and wisdom always sets the tone for a successful event. This wisdom is best exemplified by his selection of the Chiefs of Specialties and the SLDO's (ask Andy what that stands for) who all performed their tasks with efficiency, enthusiasm, and pleasantness. Please let these folks know how much you appreciate their contribution to our sport as you see them over the coming months.

Also deserving of your thanks are the fine folks of Salina, including the local businesses and governmental agencies, as well as the Salina Region of the SCCA. Their involvement is an integral part of the success of this event. We are sure all of these gracious hosts would appreciate a note of thanks.

We hope that you enjoyed the event and that you plan to once again be a part of the spirit of National Solo II competition in 1995.

SCCA SOLO II 94 Years

Salina, KS
September 5 - 9

SCCA's Solo II National Championship features a number of manufacturers who support the competitors directly. Not only do they offer contingency awards, but all of the companies provide technical assistance -- be it on-site tire mounting, parts programs and often their engineers come to Salina for direct support and research.

Even if you did not receive a contingency award, please take a moment to write a "thank you" to the tire or automotive supplier who provides you with technical assistance.

Service is also an important aspect of their support, so feel free to write and thank Bob or George at BFGoodrich, Tom from Hoosier or Chuck with PSRG/Yokohama.

Look forward to seeing you at the 1995 SCCA Solo II National Championship!

Cordially,

Sandee Mourey
Marketing Manager
Rally/Solo

P.S.....

Yes, there is a 1994, 10th annual "mug", courtesy of ***Yokohama Tire*** *and Nigel Bousfield! These will be shipped to you in the next few weeks.*

SCCA is pleased to announce the availability of a new *Windows Based* Timing and Scoring Program.

Under contract to SCCA Rally/Solo, Bill Lamkin (Chief of Timing and Scoring) developed the Windows based Timing and Scoring program which contributed to the smooth operation of this year's National Championship.

This program will be utilized for the 1995 Yokohama National Tour and the Valvoline Pro Solo.

If your Region is interested in acquiring this program, contact:

BILL LAMKIN
(502)231-1131

THERE IS ONLY ONE RACER

That's because we build it to last. Superb quality throughout, this is the one motorsports magazine you keep. It's the best we can be every month. Written and photographed by experts about the people and technology in Indy Cars, NASCAR, Formula 1, SCCA, IMSA and other major-league motorsports.

Find out why *RACER* is in a class by itself. Take a free test drive. We'll enter your subscription at a special price: 12 issues for $29.97. That's $6 off our regular subscription price—and almost half the cost of buying at the newsstand. There's no risk. If you decide not to continue, just return your subscription invoice marked "cancel." Your first issue is yours to keep at no charge.

Get ready to enjoy the best of motorsports.

Call 1 (800) 999-9718

for your free trial issue.

1994 SCCA SOLO II NATIONAL CHAMPIONSHIP
Summary of Protest and Appeals

CS 94, Steve Compton, 914 Porsche PROTESTED BY CS 98, Eric Esch, Mazda Miata for violation of 13.0, 13.1, and 13.5 of the Solo II Rules, specifically dimensional characteristics of front and rear shocks do not match any configuration from the factory. The Protest Committee took the left side wheels off the car and compared part numbers with a shock provided by Mr. Esch. They were the same. Mr. Esch stated no further disassembly was required. PROTEST DISALLOWED.

DS 71, Tony Rivera, Nissan NX-2000 PROTESTED BY DS 48, Mark Chiles, Nissan Sentra SE-R for violation of 13.9.C. of the Solo II Rules, specifically that the ignition setting is adjusted outside the factory range. The Protest Committee tested the timing according to the manual and was found to be in spec. PROTEST DISALLOWED.

ES 87, Stacey Molleker, Dodge Neon PROTESTED BY ES 140, Greg Warren Hahn, Plymouth Neon for violation of 13.10. E. of the Solo II Rules, specifically for removing or modifying the catalytic converter. The Protest Committee removed the exhaust pipe and inspected the catalytic converter to verify compliance. The catalytic converter was unmodified. PROTEST DISALLOWED.

ESL 95, Jean Kinser, Plymouth Neon PROTESTED BY ESL 78, Laura Molleker, Dodge Neon for violation of 13.1 of the Solo II Rules, specifically that the competitor has added a support device that converts the seat into a seat with full support. The Protest Committee determined that adding a cushion or pad is a comfort item for small drivers and this has been generally accepted, but to materially add side bolsters is a competitive advantage and not allowed by rule 13.2.A. COMPETITOR DISQUALIFIED. DECISION APPEALED.

ESL 95, Jean Kinser APPEALED the decision of the Protest Committee. The Appeal Committe upheld the Protest Committee's decision, but decided that it was not a performance advantage, therefore the penalty was changed to a reprimand. This issue will be addressed in the 1995 Solo II Rules.

Event Operation PROTESTED BY HS 1, Ken Rupp, Pontiac Sunbird for violation of 6.7 of the Solo II Rules, specifically for course worker interference. Competitor thought there was some problem but was not sure just what the course workers wanted which resulted in a distraction that caused competitor to run over last two cones on course. The Protest Committee could find no workers in the area of the problem. PROTEST WITHDRAWN.

BSP 70, Eric Messley, Datsun 240-Z PROTESTED BY BSP 111/17, Bruce Wentzel/Scot Dolak, Chevrolet Corvette/Datsun 260-Z for violation of 14.2.B. and 14.8. of the Solo II rules, 1) specifically rear brace for struts is welded instead of bolted, and is also triangulated and 2) bump steer blocks on bottom of struts in front

alter the geometry and are not allowed. The Protest Committee ruled that 1) welded in strut brace is at the bottom of the cage/rollbar, but serves no other purpose than to stiffen between struts, therefore it is a strut brace and cannot be welded in, 2) lateral crossbraces also stiffen across struts but serve to strengthen bar for roll over protection. A clarification from the Solo Events Board is requested, 3) blocks on bottom of struts alter geometry and are not allowed per 13.5.G. COMPETITOR DISQUALIFIED. DECISION APPEALED.

BSP 70, Eric Messley APPEALED the decision of the Protest Committee. The Appeal Committee ruled that bump steer blocks were found to be in violation of 14.1.B., any modification not specifically authorized by the stock or street prepared rules is prohibited. The rollbar configuration is acceptable. There is no maximum number of braces specified in the rules. The cross brace was not triangulated to the body. PROTEST UPHELD on bump steer blocks. COMPETITOR DISQUALIFIED.

CM 19/119, Dan Nicks/Don Ahrens, Hawke FF DL-17 PROTESTED BY CM 117, Gregg Lee, Van Diemen VD83 for violation of 16.3 of the Solo II Rules, specifically for violation of body work as in the Formula Car Specifications. The Protest Committee ruled that the body work conforms to all specifications listed in GCR and in fact the car could be raced in Club Racing in that configuration. PROTEST DISALLOWED.

CM 19/119, Dan Nicks/Don Ahrens, Hawke FF DL-17 PROTESTED BY CM 116, Jim Garry, Gemini FF81 for violation of Appendix A, Modified Class C of the Solo II Rules, specifically the car has special Solo-only "bodywork" which makes the car illegal for C Modified; the "bodywork" while possibly GCR legal, is not allowed in Solo II because it creates a "Special Solo-Only Formula Ford" as the "bodywork" would create too much drag to be worthwhile for road racing. The Protest Committee ruled that the paragraph referenced was intended to limit changes to those which can be readily changed back and not allow substantial changes. The body work is readily changeable and GCR legal as well. Competitors in C Modified need to write the Solo Events Board if alternate body work which complies to the GCR is not wanted. PROTEST DISALLOWED. DECISION UNDER APPEAL.

DM 1, Jim Gallagher, Lotus 7 PROTESTED BY DM 99, Chris O'Donnell, Lotus Elan for violation of 16.1.A of the Solo II rules, specifically for violation of modification to the floor pan, and the original frame, subframe was altered in the passenger compartment facilitating engine placement. COMPETITOR DISQUALIFIED. DECISION APPEALED.

DM 1, Jim Gallagher APPEALED the Protest Committee's decision. The Appeal Committee ruled that 1) the frame tube removed was in the passenger compartment, 16.1.A, 2) all tube frame cars must be built to GT specs, 16.1.A, 3) since the bellypan frame/subframe does not retain the full length of the passenger compartment the car falls under the tubeframe rules of the GT specs, and 4) the GT specs requires the forward most spark plug to align with the front axle centerline. PROTEST COMMITTE FINDINGS UPHELD. COMPETITOR DISQUALIFIED.

We're not finished yet.

After a day at the races, our engineers go straight back to work. Because everything they learned at the track goes into developing new tires for the street. It's this kind of thinking that allows us to sell one of the most technologically advanced lines of performance, passenger and truck tires. And to become the fastest growing tire company around. That's just the start. For more information on the Yokohama story, write us at P.O. Box 4550, Fullerton, CA 92634-4550.

PEOPLE WHO KNOW

"Sunday afternoon is what it's all about. We're a team–six men over the wall. You can't let one little advantage slip away, one little secret get out." To say that Owen Snyder is a focused individual would be something of an understatement.

A more appropriate description might be "obsessed." With winning. And with all the details that make it possible. We're happy to report that one of those details is Valvoline motor oil. Like most Indy 500 Chief Mechanics, Owen uses Valvoline in his race car, and in his personal car. After all, every one of our high performance motor oils is engineered to perform and protect under incredible stress. Withstanding whatever heat, cold, pressure and dirt your engine can throw at it. But don't take it from us. Take it from Owen Snyder. Details are his occupation–and preoccupation.

PEOPLE WHO KNOW USE VALVOLINE®
