Protest Report

Protest Filed: 29-May-2023 08:51:05
Protest Filed by: Nick Pasternack 99 EM MGB

Protest of Sound Procedures - The sound measurement methods used at SCCA Solo events are inadequate and result in inconsistent enforcement.

Protest Description:

DSQ for sound on day 1. Protesting sound level meter placement for day 2, measurement method, failure to assess and quantify uncertainty accounting for environmental conditions including ambient temperature, failure to utilize an octave band analyzer and directional microphone, humidity, wind speed and angular directionality utilizing an omnidirectional sound level meter. ISO1996-2:2017 outlines sound level measurement standard of practice for multiple types and manner of measurement. SCCA measurement method(s) do not align with promulgated consensus standard(s) of practice. Please review sound sheets and warnings by heat to understand the relationship between ambient conditions and warnings/DSQ's issued. It is simply not possible that the same vehicle, on two concurrent days, will or will not pass sound due to arbitrary placement of the meter and/or environmental conditions. The SCCA has no method for assuring accuracy or redundancy of measurements, current measurement methods do not align with recognized international consensus standards, equipment selected for measurement is inadequate, those responsible for overseeing the use and placement of that equipment are not qualified to make assessments of compliance based on arbitrary data without an assessed factor of uncertainty. For context: the protester possesses a certified industrial hygienist certification and utilizes this equipment professionally. Enough is enough. This must be addressed.

Protest Committee Decision:

The Protest Committee considered the competitor's input regarding the handling of sound measurements at the Lincoln National Tour. The protestor spoke to the committee and provided his perspective on the issues. The PC also interviewed the Sound Steward for the applicable days and heat.

The expertise of the protestor is acknowledged by the PC and his input regarding potential improvements to Appendix H are appreciated and should be directed to the Solo Events Board. However, the PC also notes that, as stated in 8.0, these events are "organized and conducted by amateurs" and that "the competitor may expect some imperfections and of his fellow competitors, and that, to a reasonable extent these things are part of the chances he takes in entering the competition."

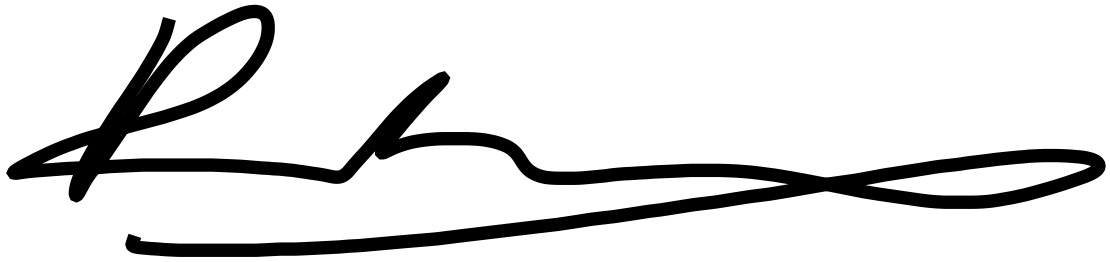

It is the determination of the PC that the Solo Rules were not violated by event workers and administrators. The Sound Steward attested to the fact that the requirements of Appendix H for sound measurement, including meter specifications, positioning, setup, and calibration, had more than been met. No omission or other failure to meet the existing rules had occurred.

Findings: The protest is <u>not</u> upheld.

Protest Chair – David Whitener

Protest Committee – Karen Babb, Raleigh Boreen, Jeff Wong, Rick Cone, Zach Barnes
