Protest Report

Protest Filed: 06-Jul-2024 11:32:49

Protest Filed by:	**Protest against:**
Andrea Albin	
FSP - 77 - Volkswagen	**- -**

Section Protested: Appendix H

Protest Description:

Sound meter placed near a 3ft tall walled area, causing an echo. Additionally, next car on course crosses path of sound meter consistently close to the time the measured car is passing. Car ran at Red Hills Tour under dbC scale without concerns.

Protest Committee Decision:

The protest committee has determined the protest is unfounded. The location of the sound sound meter was determined to be in compliance with appendix H as it was located 50 ft from the course, 3-4 ft. high and as far away from structures as is practical. Additionally, the sound worker is blocking any reverberation from the wall of concern.

Finally, the next car on course was located at closest 150 ft. from the sound meter. SEB member and Chief of Sound witnessed the 2nd run where the protestor's car exceeded the sound limit and attests that the next car on course did not cross the path of the sound meter close to the time of the protestor's measurement.
