Protest Report

Protest Filed: 03-Jul-2025 16:32:41

Protest Filed by:	**Protest against:**
Fred Zust	**Sound**
Bump - 98 - LotusElise	**NA - 99 - Soundy mcsounderson**

Section Protested: Sounds standards

Protest Description:

Informed by sound worker the meter was not calibrated prior to run group.

Protest Committee Decision:

After interviewing the protestor, the Sound Chief, and staff, and reviewing all sound rules for Solo and Pro Solo, the PC finds that the competitor's sound violation for 108.1 will be discarded and no change to the car is required prior to heat 3 runs Friday morning. The PC verified that the sound meter was calibrated prior to the start of heat 2 as recommended by the rules, and that the sound chief is not required to recalibrate the meter before each run group during a Pro Solo. However the Sound Chief noted that the calibration may not have been set at exactly 94.0 during the heat 2 recalibration. There was a significant temperature change between heat 1 and 2. The PC recommends that staff and SEB consider: (a) improved and uniform training for each sound chief at a national event, (b) adjusting the sound procedure rule to require recalibration between each heat of a Solo and ProSolo instead of leaving it discretionary. The PC also notes the protestor's offer to assist any sound rules committee in continued efforts to improve sound practices and policies, based on his professional experience in the subject matter.
