To view Everything a participant told us when they registered, you'll need to export your full registration list. From the Manage Event Registrations page view for your specific event, click the Export button and select CSV or Excel.

Then just Download and open your report.

The columns that are most helpful here:

AP/AQ – these are your emergency contact people

AR/AS – the vehicle the person is planning to drive and its modifications

AU/AV – whether the person has driven on track before and what they said their previous experience is

AX – whether they opted in to receive the Tire Rack Rewards email

AY – if their car needs a waiver, their name should appear here: https://app.smartsheet.com/b/home?lx=iuIUzeiZcX1M0GwQrVXMtQ

BA/BB – these columns are for run/work assignments

From the main Manage Event Registrations page view not specific to your event (https://www.tracknightinamerica.com/admin/event_registrations), you can also look up all TNiA registrations a person has had with us by searching for their name in the search box:
